

Facility Sensor Coverage Gaps

PASS-aligned coverage analysis highlighting rooms with missing or insufficient sensor devices.

Observation window: Dec 1, 2025 – Dec 8, 2025 • Mode: Live Data

Rooms Monitored 22 Rooms with at least one sensor installed.	Rooms Missing Sensors 22 At least one required device is missing.	Avg Coverage 27.3% Ratio of installed vs required sensors across all rooms.	Critical Gaps 22 Rooms with coverage < 80% (PASS risk threshold).
--	---	---	---

Interpretation: Green metrics indicate strong sensor coverage in monitored rooms. Amber and red metrics highlight rooms or zones where devices are missing or fall below PASS-aligned expectations.

Room-Level Coverage Metrics
