

Panic Button Response & Drill Readiness

PASS-aligned KPIs for panic buttons and emergency notifications, showing drills vs. real activations, response times, and readiness.

Observation window: Dec 1, 2025 – Dec 8, 2025 · Mode: Live Data

Panic Devices 2 Monitored devices in this scope	Activations 11 (Drills: 8, Real: 3) High drill counts support PASS-aligned practice.	Response Times Ack: 12.0s · On-Scene: 45.0s 100.0% met the on-scene target.	High-Risk Locations 2 Locations with slower response or real incidents.
---	--	---	---

Interpretation: Green metrics indicate strong readiness and timely responses. Amber or red metrics highlight locations where drills, procedures, or response routing may need review.

Panic Response Metrics by Location

Building / Site	Location	Total	Drills	Real	Avg Ack (s)	Avg On-Scene (s)	Grade	Risk
Bldg a Site-F	0xa4c13892cb9760 c0 Last: 12/7/2025 4:03 PM	6	4	2	12.0	45.0	B	!! High
Bldg a Site-F	0xa49e69fffe76455 e Last: 12/7/2025 4:03 PM	5	4	1	12.0	45.0	B	! Medium
